

Letters from Our Soldiers

*The following is a letter from one of our "adopted" soldier units.
Wendy Bossier has been corresponding with two troops.*

Wendy,

I received the boxes from you today and I want to be the first to thank all of you. The book and CDs were great. All of my guys were surprised as well. Rubio opened his and Beesler's and said "how does she know what I like?" I thought that was funny. All of them really appreciated the things you sent. They definitely weren't expecting anything. They kept asking me "who's this from?" They were excited.

How was your Christmas? Did everyone have a good time? I hope so. I went to work as usual, but ended up eating ham, mashed potatoes, turkey and stuffing. I ate so much I made myself miserable. That's okay though, it was good. It won't be long now until I get out of here for a while. It will be great just to relax in my own home for a little bit.

Talk to you later. Take care of yourself.

God bless, Dave

(Dave's on leave for a few weeks at home in Germany with his wife at the time this goes to press.)
